The people of Thomas county are making arrangements to organize a fair association and hold a county fair at Colby each fall in the future. There is nothing better than a county fair to advertise the resources of a community and display the thrift and progress of its people.

Where are those wise Wa-Keeneyans who said the pump might be capable of pumping water to the tank, but never into it, owing to the shape of the bottom of the tank; that the water ought to go in over the top anyway. Well, the tank is dripping full every other day and the water goes right up through that hemispherical bottom just the same.

#### Bacon

#### Economy

As we told you most Bacons contain an excess of salt.

They require to be freshened before being cooked.

These Bacons cost less per pound than ours, but when you figure on this salt at about 15c a pound, there is a different story to tell.

The beauty of our Bacon is that there is not the least bit of water about it.

In a pound of it there are 16 ounces that can be eaten.

We would be glad to have you try the brand we handle.

We think you would agree with us that it is a superior article.

#### A Correction

Earlham, Iowa, March 7, 1910. Editor World:

Will you please publish this in the paper at my request, that I would like to inform the people of Kansas to attend to their business as we have meddlers enough in Iowa. I do not know who has informed the editor to publish such news. I am astonished to think my mother would be guilty of a thing for she has a good, comfortable home here in Iowa and a host of friends, and money is no object; also a great abundance of property to support her the rest of her life.

I would be pleased to have the people of Kansas inclined to attend strictly to their own business, I am sure my mother would attend to her own. I don't consider those people to be Christians; they might be stumbling blocks for some people that are trying to do what God has laid out for them to do. My mother is in Iowa attending to her own business and not thinking of any wedding bells at the present time.

We would thank the people not to tell it any more and to look after their own affairs, first.

Respectfully yours,  
EMMA WAGNER.

Lee Nelson returned from Illinois the first of the week.

Otto Olson made a business trip to Lincoln county this week.

Prof. Sherwood attended a teacher's meeting in Topeka this week.

Real Estate Agent Mudge was in Denver most of the week on business.

H. C. McCollum spent the greater part of the week in Minneapolis, where he purchased two thoroughbred sows.

Dr. Blake and Postmaster Leisenring, of Ellis, were in the city Friday forenoon. Dr. Blake was called to see D. L. Countryman who is quite sick with heart failure.

C. L. Hardman made an auto trip to Osborne last Sunday and Miss Beatty accompanied him and visited her parents. Mr. Hardman's mother accompanied him home.

Rev. W. E. Scott closed a six weeks' series of meetings last Sunday night. For the first five weeks Rev. C. E. Walker assisted, then Rev. Scott conducted the meetings one week alone. Good interest was manifested in the meetings throughout.

J. D. Briggs, of Lancaster, Mo., was in the city Tuesday visiting his cousin, Dr. Brown, the Salina specialist. Mr. Briggs was an old resident of Collyer, but became dissatisfied with the country and moved to Missouri. He has found out that western Kansas is a good place to live in and will move back in the near future.

#### Kansas City Market Report.

Kansas City Stock Yards, March 12, 1910.

The fairly good run of 10,000 cattle arrived today, and late indications pointed to even more than this on the final count. Steer prices opened weak as compared with yesterday, and most of the sales were a shade under yesterday's average. Cows, heifers and butcher stuff sold steady to strong, and country kinds also sold firm. Total cattle receipts at the five leading markets so far this year show an increase of four per cent over the same period last year, but the outlet is broader than a year ago, account of the shortage in hog meat, and there is also a greater demand from the country now than a year ago at this time. Steer prices this week average highest of the year, but the top is not as high as was paid in January. Best price today is \$7.50, paid for steers weighing 1350 lbs., and \$7.40 was paid for Oklahoma steers in the quarantine division here today. This is the highest price ever paid for cattle here from below the quarantine line. Top cows being \$6.50 this week, and bulk of cows sell at \$4.25 to \$6.00, bulk of heifers \$4.75 to \$6.50, bulls at \$4.25 to \$5.75, calves \$4.50 to \$9, stock steers \$4.25 to \$5.65, feeders \$5.50 to \$6.15. Steers from the sugar mills in eastern Colorado sold here this week at \$7 to \$7.50 and hay fed steers from the mountains at \$6 to \$6.65.

The hog run is 11,000 head today, a thousand head below the first estimate, and the market is strong to 5 higher although the top is again \$10, same as yesterday's top. Heavy hogs brought the top, medium weight hogs at \$9.80 to \$9.95, weights under 200 lbs. at \$9.55 to \$9.85, pigs at \$8.50 to \$9. Prices a year ago were around \$6.75, for tops, and two years ago at this time the limit was about \$4.75. Provisions get a good deal of support from professionals, for trade purposes, and from amateurs, through a feverish desire to reap some benefit from the big amount of money changing hands. A leading broker says lard is being held at a fictitious value by interested operators.

Supply of sheep and lambs today is 13,000 head, which total includes 5000 head of stock enroute from New Mexico to Illinois feed lots. The remainder on sale was disposed of quickly at prices 10 to 15 higher than yesterday, and again the highest of the season. Lambs sold at \$8.90 to \$9.35 today, the latter price for some Kansas fed westerns, ewes sold at \$6.75 to \$7.50 today, wethers are worth up to \$7.75, yearlings \$8 to \$8.75. A bid of \$8.50 for feeding lambs was refused today, killers taking them at a higher figure.

J. A. RICKART,  
L. S. Correspondent.

Felix Minek returned home last Saturday from Princeton, Kans. He had charge of his brother, Adolph's car of horses and household goods and reports a wreck at Wilder, Kans., in which three cars were derailed, and he was pretty badly shaken up, but fortunately no damage was done. He says it was a close call as his car was close to the ones derailed.

On Tuesday of this week H. F. Kline and Harry Britt had some difficulty over a corn deal at the Britt place east of town which resulted in blows thick and fast. On Wednesday the case was brought up before Justice Swiggett and the defendant fined. A city chap is mighty foolish to mix up with a good husky strong limbed country lad for he invariably gets the worst of it and besides is never very pretty to look at afterwards.

In this issue will be found Gleason & Marshall's mammoth advertisement. In this great closing out sale there appear bargains of unusual merit which can not fail to attract those who wish to make purchases at prices hitherto unheard of. Don't fail to read and study this ad. and when in town go to the store and see for yourself and be convinced.

Ten page paper this week.
